

RESTORE **ANY FILE, ANY DISK, ANY SYSTEM...**

Any Time!

STORServer Enterprise Backup Appliances are comprehensive solutions for data backup. STORServer Enterprise Backup Appliances are a suite of easy-to-use, fully integrated data protection solutions for data backup, archive data and disaster recovery.

Save Time & Money

- Quick to install
- Easy to learn and use
- Minutes a day to manage
- Disk-to-disk backup
- Scalable
- Automated off-site disaster recovery
- Incremental daily backup
- Full backup always on-line
- One source for warranty/support
- Built-in data deduplication

Industry Compliant

- Policy-based data retention and archiving
- Off-site disaster recovery

Enterprise-wide Protection

- Network and cross-platform friendly
- Supports remote clients and servers

In addition to the Enterprise Backup Appliances, STORServer offers a suite of stand-alone software products that are designed to simplify use and enhance the functionality of any IBM® Tivoli® Storage Manager (TSM) installation. STORServer also provides certified TSM training and consulting services.
